An outline of acquisition information for upcoming business opportunities in BES for the next 18 months

OBJECTIVE

Enhance communications
between members of Industry and the
Business and Enterprise Systems (BES)
Directorate

DISCLAIMER

The following opportunities are speculative and the appearance of the information in this document or website in no way guarantees a contract action will be awarded

Upcoming Acquisitions

Project Name: Commercial Asset Visibility Air Force (CAV AF)

Program Description: CAV AF is a service component system that allows the AF to manage and track Contract Depot Maintenance (CDM) done at contractor facilities and government furnished material issued to the contractor. About \$2.3B of CDM will be processed annually in CAV AF.

Objective: Air Force (CAV AF) Sustainment Support includes Application Integration Services, System Management and Administration Services, Database Services, Application Hosting and Infrastructure Services and Administrative Support Services.

Scope: Requires systems engineering processes including, but not limited to: requirements development, technical management and control, system/software design and architecture, integrated risk management, configuration management, data management, decision analysis and resolution, project management, organizational process definition and focus, test and evaluation, verification and validation practices.

Acquisition Approach: Competitive 8(a)

Period of Performance: July 2019 – July 2024 (One year base period plus four 1-year option periods (optional 6 month extension))

Anticipated RFP Release Date: TBD

Estimated Dollar Value: \$9M – \$12M

NAICS Code: 541519 – Other Computer Related Services

Small Business Set Aside: Yes

Incumbent: Stellar Innovations and Solutions, Inc., FA8770-17-C-0003

POCs: Program Manager – Ms. Gina Laughlin
gina.laughlin.1@us.af.mil
937-904-0626; DSN: 674-0626

Contracting Officer – Mr. Andrew McMullen
andrew.mcmullen@us.af.mil
312-986-2346; DSN: 986-2346

Upcoming Acquisitions

Project Name: AFLCMC/HIAR and HIAM Subject Matter Expert (SME) Support

Program Description: Provide AFLCMC Logistics Readiness (HIAR) and Maintenance (HIAM) Branch Program Management Offices (PMOs) with Contractor personnel that have functional and technical expertise to support assigned logistics defense business systems (DBS).

Objective: Provide SME support for HIAR and HIAM PMOs to include the following programs: Contractor Supported Weapon System Data Exchange (CSWS DE); Maintenance Planning and Execution (MP&E); Item Management Control System (IMCS); Requirements Management System (RMS); Reliability and Maintainability Information System (REMIS); Weapon System Management Information System (WSMIS); Air Force Equipment Management System (AFEMS); Stock Control System (SCS); Purchase Request Process System (PRPS); Depot Maintenance Systems Integration (DMSI); Depot Maintenance Legacy Systems (DMLS); Automated Technical Order System (ATOS); Enhanced Technical Information Management System (ETIMS); Technical Manual Specifications and Standards (TMSS); and Commercial Asset Visibility Air Force (CAV AF).

Scope: Provide functional SME support to include, but not limited to system sustainment support, operational support, requirement evaluation, customer (Help-Desk) support, functional testing and analysis/re-engineering of functional processes.

Acquisition Approach: Small Business Enterprise Applications Solutions (SBEAS) Multiple-Award Indefinite Delivery, Indefinite Quantity (IDIQ) or other small business contract vehicles

Period of Performance: March 2019 – March 2024 (One year base period plus four 1-year option periods) (optional 6 month extension)

Anticipated RFP Release Date: 3Q FY18

Estimated Dollar Value: \$75M – \$85M

NAICS Code: 541511 – Custom Computer Programming Services

Small Business Set Aside: Yes

Incumbent: Excellus Solutions, LLC, FA8771-12-D-1006 SC03

POCs: Program Manager – Ms. Dawn Voelkl
dawn.voelkl.1@us.af.mil
937-904-0287; DSN: 674-0287

Contracting Officer – Mr. Richard Dickerson
richard.dickerson.2@us.af.mil
937-257-4846; DSN: 787-4846

Upcoming Acquisitions

Project Name: AFLCMC/HIAM Agile Maintenance Support (AMS) Subject Matter Expert (SME)

Program Description: Provide full range Information Technology SME support for Gunter Field Maintenance (FMx) systems/sub-systems: Integrated Maintenance Data System Central Database (IMDS CDB), Combat Ammunition System (CAS), Computer Software Configuration System (CSCS), Enhanced Maintenance Operations Center (EMOC), Maintenance Scheduling and Application Tool (MSAT), Precision Measurement Equipment Laboratory (PMEL) Automated Maintenance System (PAMS), Training Business Area (TBA) and associated eTools applications.

Objective: Re-compete the current AMS SME support services contract

Scope: AMS SME support, includes but is not limited to, maintaining databases, applications, instructions and manuals; level 2 help desk support to include training and problem identification; testing systems and subsystems; evaluating and documenting software changes, problems and deficiencies; supporting agile and cloud based efforts; and integrating provided FMx expertise as required with other contractors, architects and engineers to provide effective IT SME support to the FMx warfighter.

Acquisition Approach: Small Business Enterprise Applications Solutions (SBEAS) Multiple-Award Indefinite Delivery, Indefinite Quantity (IDIQ) or other small business contract vehicles

Period of Performance: August 2019 – August 2023 (One year base period plus three 1-year option periods (optional 6 month extension)

Anticipated RFP Release Date: 3Q FY18

Estimated Dollar Value: \$12M – \$15M

NAICS Code: 541511 – Custom Computer Programming Services

Small Business Set Aside: Yes

Incumbent: Datum Software, Inc., FA8771-12-D-1001, 0005

POCs: Program Manager – Ms. Gladys Leonard
gladys.leonard@us.af.mil
334-416-5450; DSN: 569-5450

Contracting Officer – Mr. Maurice Griffin
maurice.griffin@us.af.mil
334-416-6099; DSN: 569-6099

Upcoming Acquisitions

Project Name: Reliability and Maintainability Information System (REMIS) – Sustainment

Program Description: The Air Force Enterprise system that provides real time operational maintenance status on aircraft and weapon systems combat readiness, availability, reliability, maintainability, trend analysis, failure prediction, utilization, TCTO and configuration status of all AF weapon systems world-wide.

Objective: Provides development and sustainment support for REMIS. Development and sustainment support is anticipated to be off-site (i.e., contractor facility). Task management activities will be located on-site at Wright-Patterson Air Force Base, OH.

Scope: Provide application services (sustainment and development) to support the REMIS Program Office in the:

- 1) Development, testing and fielding of approved USAF requirements
- 2) The sustainment of the REMIS application located in DISA
- 3) Migrate the REMIS application and data from DISA to an Air Force approved Cloud environment

Acquisition Approach: TBD

Period of Performance: October 2019 – October 2024 (One year base period plus four 1-year option periods)

Anticipated RFP Release Date: 1Q FY19

Estimated Dollar Value: \$60M – \$85M

NAICS Code: 541511 – Custom Computer Programming Services

Small Business Set Aside: TBD

Incumbent: Northrop Grumman Systems Corporation, FA8732-14-D-0028 SC01

POCs: Program Manager – Mr. Joe Lask
joseph.lask.1@us.af.mil
937-257-0063; DSN: 787-0063

Contracting Officer – Mr. Kevin Poole
kevin.poole.1@us.af.mil
937-904-0207; DSN: 674-0207

Upcoming Acquisitions

Project Name: Stock Control System (SCS) – Sustainment

Program Description: SCS delivers world-wide readiness and sustainability for the warfighter by providing faster, accurate allocation and movement of materiel. Used by both Air Force and Marine Corps, SCS provides global combat readiness and sustainability through wholesale/retail asset visibility, real-time requisition processing and effective custody/allocation/distribution of AF and Marine Corps-managed items. Key functional capabilities are: requisition processing, visibility/control of inventory asset balances and due-ins/receipts, materiel returns (excess), depot maintenance support, aggregation accounts and maintaining item management data. SCS also computes readiness-based levels, performs reutilization and disposition, provides web inquiry capability regarding asset balances/requisition status/item management data, allocates and redistributes assets, performs in-transit tracking, pre-positions backorders for shipment from the receiving line and provides single sign-on capability. For the purposes of the task order SCS refers to the D035 suite of systems including the modernized parts and the online training.

Objective: Provides continuing sustainment and development support for SCS. Sustainment and development support will be conducted off-site (at contractor facility). Task management activities will be located on-site at Wright-Patterson Air Force Base, OH.

Scope: Task Order to obtain system sustainment, maintenance, and modification of SCS. In addition, the task order covers support activities related to modernization of SCS.

Acquisition Approach: NETCENTS-2 App Services Small Business contract

Period of Performance: March 2019 – March 2022 (1-year base period plus two 1-year option periods) (optional 2 month extension)

Anticipated RFP Release Date: 3Q FY18

Estimated Dollar Value: \$20M – \$25M

NAICS Code: 541511 – Custom Computer Programming Services

Small Business Set Aside: Yes

Incumbent: Exeter Government Services, LLC, FA8771-12-D-1007, T.O FA8771-12-D-SC08

POCs: Program Manager – Mr. Christopher Whitaker
christopher.whitaker@us.af.mil
937-257-8335; DSN: 787-8335

Contracting Officer – Ms. Charlotte Perry
charlotte.perry@us.af.mil
937-257-9881; DSN: 787-9881

Upcoming Acquisitions

Project Name: Weapon System Management Information System (WSMIS)

Program Description: The WSMIS modules provide standard automated Air Force decision support and operational support tools that compute and assess wartime requirements. WSMIS provides the capability to view impacts of logistic resources on wartime capabilities.

Objective: Re-complete the current WSMIS sustainment contract

Scope: The services will support the WSMIS PMO at Wright-Patterson Air Force Base, OH. The services include software modification, maintenance and sustainment for the following WSMIS modules: Sustainability Assessment Module (SAM)-D087C, Requirements/Execution Availability Logistics Module (REALM)-D087H, Propulsion Requirements System (PRS)-D087Q, Execution and Prioritization of Repairs Support System (EXPRESS)-D087X and WSMIS-Database (DB)-D087W.

Acquisition Approach: TBD

Period of Performance: April 2019 – April 2024 (One year base period plus four 1-year option periods)

Anticipated RFP Release Date: 3Q FY18

Estimated Dollar Value: \$20M – \$25M

NAICS Code: 541511 – Custom Computer Programming Services

Small Business Set Aside: Yes

Incumbent: Excellus Solutions, LLC, FA8771-12-D-1006 SC02

POCs: Program Manager – Ms. Sandra James
sandra.james@us.af.mil
937-257-7227; DSN 787-7227

Contracting Officer – Mr. David Zeller
david.zeller.2@us.af.mil
937-656-0148; DSN 986-0148

Upcoming Acquisitions

Project Name: Transportation Systems Technical Support Services

Program Description: Transportation Systems currently consists of three programs: Cargo Movement Operations Systems (CMOS), Online Vehicle Interactive Management Systems (OLVIMS) Dispatch and ONBASE - personnel property document management system. CMOS automates cargo and passenger movements during peacetime, deployments and mobility/contingency operations. OLVIMS Dispatch is utilized to manage transportation requests, dispatch vehicles, manage driver utilization and issue and track Air Force Motor Vehicle Operator Identification Cards and Driver Records. ONBASE provides the capability to receive, track and store all documentation related to shipment of personnel property, household goods, for military members and authorized Department of Defense civilians.

Objective: Provide a single Transportation Systems Technical Team with the capability to provide life-cycle support to CMOS, OLVIMS, ONBASE and other programs as assigned to the Transportation Systems Section located at Maxwell-Gunter Annex Air Force Base, AL.

Scope: Life-cycle support services encompasses technical functions, operations support, security, functional and nonfunctional requirements analysis and management, configuration management, risk management, development, sustainment, test, integration, implementation, training and help desk support.

Acquisition Approach: Small Business Enterprise Applications Solutions (SBEAS)

Period of Performance: May 2019 – May 2023 (One year base period plus four 1-year option periods)

Anticipated RFP Release Date: 1QFY19

Estimated Dollar Value: \$20M – \$25M

NAICS Code: 541511 – Custom Computer Programming Services

Small Business Set Aside: Yes

Incumbent: DSD Laboratories, FA8771-12-D-1005

POCs: Program Manager – Capt Aaron Beebe
aaron.beebe@us.af.mil
334-416-3966; DSN: 596-3966

Contracting Officer – Ms. Lexcie Potter
lexcie.potter@us.af.mil
334-416-6341; DSN: 596-6341

HIB BUSINESS SYSTEMS

2018

Upcoming Acquisitions

Project Name: Automated Civil Engineering Systems of Family of Systems (ACES FoS)

Program Description: Consists of four distinct operational applications: Automated Civil Engineer System (ACES), Interim Work Information Management System (IWIMS), ACES-Fire Department (ACES-FD) and Explosive Ordnance Disposal Information Management System (EODIMS). This FoS is used in the management of information supporting the Civil Engineer Squadron (CES) missions and provides commanders and managers, both internal and external to the CE community, current information for use in peace or wartime decision making.

Objective: Provide support to the ACES PMO in the sustainment of the legacy systems

Scope: Meet the requirements, level of effort, services and expected outcomes to provide qualified personnel for successful completion of endeavors identified to support the ACES FoS. Ensure that these systems are compliant with regulatory, security and law changes; are compliant with the BES Business Process Directory (BPD) (<https://acc.dau.mil/bes>) and Defense Information Systems Agency (DISA) process and environmental requirements. The majority of the work involves sustainment and upgrades to systems, supporting data calls and providing data and integration support to the NexGen IT PMO. Additionally, provide support that will enhance/augment the IT services and solutions which support the ACES FoS hardware and software development, modernizing and advancing the technology of these systems, their environment and infrastructure. IT services include, but are not limited to, documentation, operations, deployment, cybersecurity, configuration management, training, Commercial Off-The-Shelf (COTS) product management and utilization, technology refresh, data and information services, information display services and business analysis for the ACES FoS.

Acquisition Approach: TBD

Period of Performance: May 2019 – May 2024 (One year base period plus four 1-year option periods)

RFP Release Date: 2QFY19

Dollar Value: TBD

NAICS Code: 541511 – Custom Computer Programming Services

Small Business Set Aside: Yes

334-416-4055; DSN: 596-4055

HIB

BUSINESS SYSTEMS

2018

Upcoming Acquisitions

Project Name: Automated Contract Preparation System (ACPS)

Program Description: ACPS is a contract writing system supporting the AFMC logistics contracting community (Hill, Robins and Tinker). It was developed to allow for streamlining and automating of the logistics contracting process and provides solicitation, contract-writing and contract management capabilities.

Objective: Provide technical support to the ACPS PMO in support of new and existing initiatives and data migration to Air Force Contracting Information Technology (CON-IT)

Scope: Provide a full range of IT expertise supporting sustainment, maintenance and updates of the ACPS program and its requirements. Support includes, but is not limited to, technical analysis services, network/system engineering services, software engineering services and programming services in support of the AFLCMC/HIBC mission and requires subject matter expertise (SME) in the ACPS software programs, engineering and engineering processes, design, databases, interfaces, release preparation and fielding, troubleshooting and use of relevant COBOL and Visual Basic tools, as well as integration with other relevant programming languages. Support of efforts to obtain/maintain compliance with new initiatives/mandates is also required, to include data migration to CON-IT. SMEs in AF logistics contracting processes is also required.

Acquisition Approach: TBD

Period of Performance: March 2019 – March 2024 (One year base period plus up to four 1-year option periods)

Anticipated RFP Release Date: 3Q FY18

Estimated Dollar Value: TBD

NAICS Code: 541511 – Custom Computer Programming Services

Small Business Set Aside: Yes

Incumbent: Diligent Consulting, Inc., FA8771-12-D-1003

POC: Program Manager – Ms. Karen Trout
karen.trout@us.af.mil
937-522-2347; DSN: 672-2347

Contracting Officer – Ms. Laura Caravantes
laura.caravantes@us.af.mil
937-257-2883; DSN: 787-2883

Upcoming Acquisitions

Program Name: Base Support and Expeditionary Planning Tool (BaS&E)

Program Description: Captures all aspects of AF expeditionary/garrison locations to include aircraft supportability, housing and transportation, to provide Command and Control (C2) for rapid beddown assessment by combatant commanders

Objective: Program Office Configuration Management, User Training, Functional Testing, Business Analysis, Subject Matter Expert

Scope: Support the program office with requirements development, risk management, user testing, user training and quality assurance of software/deliverables from software development contract. Program is transitioning from waterfall to agile software development and is also transitioning from being hosted in GCSS-AF to the Amazon Cloud (AWS).

Acquisition Approach: Competitive 8(a)

Period of Performance: TBD

Anticipated RFP Release Date: 2QFY19

Estimated Dollar Value: \$3M –\$4M

NAICS Code: 541511 – Custom Computer Programming Services

Small Business Set Aside: Yes

Incumbent: 22nd Century Technologies, FA8771-16-F-0014

POCs: Program Manager – 1Lt Trey LaSane
trey.lasane.1@us.af.mil
334-416-5775; DSN: 596-5775

Contracting Officer – Ms. Cynthia Dodd
cynthia.dodd.1@us.af.mil
334-416-4193; DSN: 596-4193

Upcoming Acquisitions

Project Name: Civil Engineering (CE) Systems Acquisition Support

Program Description: Air Force Civil Engineering (CE) Subject Matter Experts (SME) capability is required to ensure the CE Systems section continues to provide optimum IT support to the AF CE community while meeting all required AF and DoD instructions, policies, directives and mandates. SME support includes Program Management, Systems Engineering, Software Engineering, Information Assurance, Configuration Management Support, Geospatial Information Support and Functional Testing Support.

Objective: Provide lifecycle support for CE IT programs of record

Scope: Provide a full range of IT expertise to support the planning, design, test, update, documentation, implementation, development, sustainment and fielding of CE automated systems to include implementation of the Joint Capabilities Integration Development System (JCIDS) and to support the Doctrine, Organization, Training, Materiel, Leadership and Education, Personnel and Facilities (DOTMLPF) process.

These systems include:

- 1) Automated Civil Engineer System (ACES) Family of Systems – supports energy, operations and supply management, fire department equipment and dispatch and explosive ordnance disposal tracking
- 2) Next Generation IT (NexGen IT) – supports real property management, financial management and workflow management
- 3) Enterprise Environmental Safety and Occupation Health Information Management System (EESOH-MIS) – supports hazardous waste, hazardous material, clean up and environmental reporting and range management
- 4) Air Force Geospatial Information Management Systems (AFGIMS) – supports geospatial enablement of CE business data and visualization capability

Acquisition Approach: Competitive 8(a)

Period of Performance: June 2018 – June 2023 (One year base plus four 1-year option periods)

Anticipated RFP Release Date: 3Q FY18

Estimated Dollar Value: \$40M – \$50M

334-416-6687; DSN: 596-6687

Upcoming Acquisitions

Project Name: Deliberate and Crisis Action Planning and Execution Segments (DCAPES) Integration and Infrastructure Support

Program Description: DCAPES Increment 2B provides capabilities to the USAF warfighter needs to support the entire conflict continuum – from major combat operations and campaigns to smaller scale contingencies and crisis response operations. It enables the AF to posture trained and equipped forces, organized in effects-based operational capability packages, to deliver effective aerospace capabilities to the Joint warfighter. DCAPES enables wing/base planners to support and execute the missions of planning, presenting, sourcing, mobilizing, deploying, accounting for, sustaining, redeploying and reconstituting forces within the warfighting commanders' required decision cycles. The mission of DCAPES is to support Joint and AF Adaptive Planning and Execution (APEX) needs by enabling the warfighter to rapidly respond to a Combatant Commander's (COCOM's) force requirements. Provide real-time Command and Control (C2), planning and execution information supporting the USAF manpower, personnel, operations and logistics force presentation and execution processes while providing a single integrated data environment to project aerospace power worldwide.

Objective: Provide infrastructure and integration services for DCAPES

Scope: The contractor will be responsible for supporting the establishment of Government environments and coordinating with the Capabilities Integration Environment (CIE) on the management of the resulting capabilities which will reside in the CIE or other designated environment(s). Capability providers (developers) will employ the resulting DCAPES environments to develop, test and deploy capabilities into a User First Look area for Government evaluation. The contractor will provide the services necessary to assist capability providers in successfully deploying capabilities into the CIE environments and insuring compliance of products with Government requirements including security and interoperability. The contractor shall support other Government-designated hosting environments such as DISA Cloud Services to develop, test and deploy WPE capabilities. The contractor shall assist the PMO in the determination of the appropriate lifecycle management tools for Requirements Management, Project Reporting, Document Management and collaboration with stakeholders.

Acquisition Approach: NETCENTS-2 App Services Small Business contract

Period of Performance: February 2019 – February 2024 (One year base period plus four 1-year option periods)

Anticipated RFP Release Date: 3QFY18

Estimated Dollar Value: \$5M – \$7M

NAICS Code: 541511 – Custom Computer Programming Services

HIB BUSINESS SYSTEMS

2017

Upcoming Acquisitions

Project Name: electronic Freedom of Information Act (eFOIA)

Program Description: The eFOIA system provides an enterprise system for the public to submit FOIA requests and for accessing information through legal means as directed by FOIA policy. The eFOIA system supports a total Air Force-wide FOIA population of 830 users. The eFOIA system suspenses and tracks FOIA submissions from the public to FOIA offices across the Air Force.

Objective: Provide support to SAF/A6XA for the sustainment of the eFOIA system

Scope: Maintain sustainment and support services that enable FOIA Request Case Management Tracking, Status Reporting, Document Redaction and Response Archival for the United States Air Force. Sustainment of the eFOIA software product shall enable compliance with the following FOIA legal and regulatory requirements: Title 5 United States Code, Section 552, The President's Memorandum, Freedom of Information Act, DoDR 5400.07-R, AFMAN 33-302, Freedom of Information Act Program, The US Attorney General's Memorandum, Freedom of Information Act, Executive Order 13392, OPEN Government Act of 2007 and Federal Court Order. Additionally, the scope includes support as required to re-host the eFOIA application and required software/databases.

Acquisition Approach: : NETCENTS-2 App Services Small Business contract

937-257-7603; DSN: 787-4055

Upcoming Acquisitions

Project Name: Logistic Feasibility Assessment Capability (LOGFAC)

Program Description: LOGFAC supports operations and logistics planning providing tasking capability down to the National Stock Numbers (NSN) level of detail in support of specific Operations Plans (OPLANs). LOGFAC also supports logistics and feasibility or course of action analyses. LOGFAC supports planning, execution and monitoring of forces, equipment and supplies during peacetime, contingency situations, periods of national crisis and both limited and global war.

Objective: Maintenance and Sustainment Support

Scope: The Contractor shall provide all labor, material, supplies and services to develop, maintain, deliver, test and field software and associated products to support the LOGFAC Life Cycle. The Contractor shall perform general systems planning and analyses, project scheduling and provide enhancement recommendations to improve the functionality, performance and efficiency of the LOGFAC application, infrastructure and services. Enhancement recommendations shall be supported by an objective and thorough analysis of alternatives.

princess.kendrick@us.af.mil
334-416-5203; DSN: 596-5203

Upcoming Acquisitions

Project Name: Next Generation Information Technology (NexGen IT)

Program Description: NexGen IT is an IT-hosted capability that enables future Civil Engineer IT capabilities. This product is comprised of a NexGen IT application consisting of integrated modules with embedded/configurable best business practices and capabilities in Real Estate, Energy, Computerized Maintenance Management System (CMMS), Project Management and Space Management. Real Estate Management is the process of managing space and transactions at an installation and consists of four sub-processes: Manage Transactions, Manage Space Occupancy, Manage Contracts, Conduct Move Planning and Management. This function is a key driver in the execution of plans from Project Management, as well as a provider of feedback into the development of future plans.

Objective: Migrate system to commercial cloud environment, support data conversion from legacy systems to NexGen IT, support deployment of the system to 184 USAF installations and sustainment support services of the NexGen IT application

Scope: Migrate system to commercial cloud environment, provide data conversion support, deployment of system to USAF installations and sustainment services. NexGen IT is in the process of being deployed to 184 AF installations. This effort involves conversion of data from the legacy systems (ACES/IWIMS) into NexGen IT. The data readiness and conversion process for each installation starts 6 months prior to actual deployment of the system to the installation. It also involves providing data conversion reports on a weekly basis based on this 6 month schedule for each installation. These tasks occur for 1-2 installations "going live" on a weekly basis. The schedule is also broken into 5 distinct sets of installations called "Waves." This deployment started in June 2016 and is expected to complete in 2023. Sustainment services will include baseline change requests for enhancing current capabilities, compliance activities (CFO, RPIM, Blue Book, FISCAM), determining gap analysis for future capabilities, database management and help desk level II and III support. Certified IBM TRIRIGA expertise is required.

Acquisition Approach: TBD

Period of Performance: March 2019 – March 2024 (One year base period plus four 1-year option periods)

anna.jackson@us.af.mil
334-416-4055; DSN: 596-4055

Upcoming Acquisitions

Project Name: Theater Medical Information Program-Air Force (TMIP-AF)

Program Description: TMIP-AF champions the Air Force specific requirements on the TMIP-Joint and follow-on enhancement program efforts. The program trains and equips medical forces for deployment and supports electronic health care records for deployed and Aeromedical Evacuated (AE) warfighters. TMIP-AF supports system theater upgrades, deployment projects and testing on the Manpower and Equipment Force Packaging (MEFPAKs), AFs Central Command (AFCENT), USAF Reserve, Air National Guard, AF Special Operations Command (AFSOC), Air Mobility Command (AMC), Air Combat Command (ACC) and ARMY supported network environments.

Objective: Provide support to the TMIP-AF PMO in the accomplishment of its mission of patient care, to include AE and deployment of systems in support of the warfighters in theater and supporting humanitarian missions and natural disasters

Scope: Provide experienced personnel who possess the specific skills and understanding of TMIP-AF and the Air Force Medical Service (AFMS) operational environments and guidance. Support services include both in-theater and garrison/stateside location support; 24x7x365 availability support to the field users and TMIP-specific experience in system administration and functional processes to meet these requirements. The contractor shall maintain the operational TMIP-AF suite of systems deployed in theater and ensure they meet Risk Management Framework (RMF) security certification and accreditation and Authority to Connect (ATC) compliance and maintain hardware and software compatibility. The contractor will conduct on-site pre-deployment training for the AF, Air National Guard units, and Reserve units in both the TMIP-AF capability and the modernized system Joint Operational Medicine Information Systems AF (JOMIS AF) as it is fielded.
